News Release

Japan Credit Rating Agency, Ltd.

26-D-0922
November 25, 2026

Japan Credit Rating Agency, Ltd. (JCR) announces the following credit rating.

Mitsubishi UFJ Financial Group, Inc. (security code: 8306)

<Affirmation>

Long-term Issuer Rating:	AA
Outlook:	Stable
Bonds (with no financial covenants):	AA
Bonds (Tier 2 with loss absorption clause):	AA-
Bonds (Tier 1 with loss absorption clause):	A
Shelf Registration:	
(Bonds with no financial covenants):	Preliminary AA
(Tier 2 bonds with loss absorption clause):	Preliminary AA-
(Tier 1 bonds with loss absorption clause):	Preliminary A

MUFG Bank, Ltd. (security code: -)

<Affirmation>

Long-term Issuer Rating:	AA
Outlook:	Stable
Bonds (Senior bonds):	AA
Bonds (Dated subordinated bonds):	AA-
EMTN Program:	AA

Mitsubishi UFJ Trust and Banking Corporation (security code: -)

<Affirmation>

Long-term Issuer Rating:	AA
Outlook:	Stable
EMTN Program:	AA
CP:	J-1+

MUFG Securities EMEA plc (security code: -)

<Affirmation>

Bonds (Senior bonds):	AA
EMTN Program:	AA

Rationale

(1) The MUFG Group (“MUFG”) is Japan’s largest diversified financial group having MUFG Bank, Ltd., Mitsubishi UFJ Trust and Banking Corporation (“MUTB”), Mitsubishi UFJ Morgan Stanley Securities Co., Ltd. and others. JCR deems MUFG’s creditworthiness to be equivalent to the rating of AA, reflecting such factors as the solid business base, good asset quality and high levels of earnings capacity and capital adequacy. Backed by a strong financial base, MUFG is working to strengthen its domestic and overseas business bases through strategic capital and budget allocation, and JCR will watch whether these efforts will lead to profitability improvement and other positive outcomes.

(2) MUFG enjoys exceptionally strong market position and competitiveness. Domestically, it has leading group companies in wide-raging areas, including banking, trust and securities, as well as credit cards, consumer finance, leasing and asset management. Amid intensifying competition in the retail sector due to changes in the interest rate environment, it is pursuing the integrated management of retail businesses under the Emut brand, alongside other initiatives. Overseas, it has major local commercial banks as consolidated subsidiaries, including Bank of Ayudhya Public Company Limited in Thailand and PT Bank Danamon Indonesia, Tbk. in Indonesia, thereby building one of the most extensive overseas networks among Japanese banking groups. Collaboration with Morgan Stanley, a strategic

Copyright © Japan Credit Rating Agency, Ltd. All Rights Reserved.

alliance partner, has yielded positive results in such areas as domestic and overseas investment banking operations.

(3) Fundamental earnings capacity is high. Profit scale is exceptionally large among Japanese banking groups, and ROA and RORA are also at competitive levels. Efforts undertaken since the era of ultra-low interest rates to strengthen non-interest businesses and overseas operations, improve the profitability of investment and financing operations and so forth are yielding results, and earnings capacity in recent years has improved even when excluding external factors like rising interest rates and the weak yen. Profit contribution from Morgan Stanley, an equity-method affiliate, is also significant. As earnings opportunities are expanding in Japan, driven by rising domestic interest rates, accelerating corporate activities—primarily among large corporations, growth in funding demand, etc., JCR predicts that profits will remain steady for the time being.

(4) Loan assets are sound. MUFG's non-performing loans ratio under the Financial Reconstruction Act on a consolidated basis is low at around 1%. Albeit with some fluctuations, credit costs have long been staying at a contained level when averaged out. While the possibility of an increase in credit costs requires attention amid uncertainties in the external environment, including the situation in the Middle East, JCR believes that, given factors like the well-diversified credit portfolio and the majority of borrowers being financially highly sound, MUFG possesses sufficient resilience to withstand changes in the external environment. Market risk associated with fluctuations in interest rates and stock prices is at a level with no particular concerns.

(5) Capital adequacy is strong. Tier 1 ratio adjusted for gains on valuation of available-for-sale securities, etc. is at a level commensurate with JCR's AA rating category. MUFG sets a target range of the capital level in light of soundness and capital efficiency and controls growth investments, shareholder returns and risk assets within that framework. The capital level fell below the lower end of the target range at the end of March 2026 partly because of a greater-than-expected increase in loans but has quickly recovered since then. Given MUFG's policy and track record of controlling the capital level, as described above, and acceleration of capital accumulation with period income, JCR assumes that MUFG will maintain the current level of capital adequacy even while executing growth investments and shareholder returns.

Issuer: Mitsubishi UFJ Financial Group, Inc.

Mitsubishi UFJ Financial Group, Inc. is the holding company of MUFG. Its long-term issuer rating is equivalent to MUFG's creditworthiness. Double leverage ratio has been staying below a certain level, and, given the financial management policy and other factors, stability in cash flow balance will likely be maintained into the future. Hence, the structural subordination of a holding company is not reflected in the rating.

Issuer: MUFG Bank, Ltd.

MUFG Bank is the core commercial bank of MUFG. Its long-term issuer rating is equivalent to MUFG's creditworthiness in light of such factors as MUFG Bank's position within MUFG. MUFG Bank has a strong and well-established business base across large corporations, SMEs and retail customers. It accounts for the largest share of MUFG's total assets and earnings and continues to play a central role within MUFG even as the latter's business is becoming increasingly diversified.

Issuer: Mitsubishi UFJ Trust and Banking Corporation

Together with MUFG Bank, MUTB as a trust bank forms the core of MUFG. It provides a full line of trust functions and others to MUFG's customers. Its long-term issuer rating is equivalent to MUFG's creditworthiness in light of such factors as MUTB's position within MUFG.

Rating Assignment Date: November 19, 2026

The assumptions for the credit ratings and the definitions of the rating symbols are published as "Types of Credit Ratings and Definitions of Rating Symbols" (January 6, 2014) in Information about JCR Ratings on JCR's website (https://www.jcr.co.jp/en/).

Outline of the rating methodology is shown as "JCR's Rating Methodology" (October 1, 2024), "Banks" (October 1, 2021), "Rating Methodology for Financial Groups' Holding Companies and Group Companies" (September 1, 2022) and "Rating Methodology for Financial Institutions' Capital and TLAC Instruments" (April 1, 2026) in Information about JCR Ratings on JCR's website (https://www.jcr.co.jp/en/).

The rating stakeholder participated in the rating process of the aforementioned credit ratings.

A preliminary rating is a credit rating assigned as a preliminary evaluation while material terms for issue to be rated are not yet finalized. When the issuing terms are finalized, JCR will confirm them and will assign a credit rating anew. The rating level of the final rating may be different from that of the preliminary rating, depending on the final content of the terms, etc.

A program rating is assigned to evaluate the creditworthiness of a program. The credit standing of an individual note issued under the program may be regarded as the same as that of the rated program. However, JCR does not consider the credit standing of the individual note as the same as that of the program, in the cases where the principal and interest payments of the individual note rely on the credit standing of a third party rather than the issuer of the program and notes (e.g. credit linked notes and exchangeable notes). JCR usually does not assign a rating to the individual note issued under the program, unless the issuer solicits a rating.

JCR is registered as a "Nationally Recognized Statistical Rating Organization" with the U.S. Securities and Exchange Commission with respect to the following four classes. (1) Financial institutions, brokers and dealers, (2) Insurance Companies, (3) Corporate Issuers, (4) Issuers of government securities, municipal securities and foreign government securities.

JCR publishes its press releases regarding the rating actions both in Japanese and in English on the same day. In case that it takes time to translate rating rationale, JCR may publicize the summary version, which will be replaced by the full translated version within three business days. (Regarding Structured Finance products, JCR only publicize the summary version in English.)

INFORMATION DISCLOSURE FORM

Japan Credit Rating Agency, Ltd.

Disclosure Required by Paragraph (a)(1)(ii) of Rule 17g-7

Issuer:	Mitsubishi UFJ Financial Group, Inc. MUFG Bank, Ltd. Mitsubishi UFJ Trust & Banking Corporation MUFG Securities EMEA plc
Rating Publication Date:	November 25, 2026

1 The Symbol, Number, or Score in the Rating Scale used to Denote Credit Rating Categories and Notches and, the Identity of the Obligor or the Identity and a Description of the Security or Money Market Instrument as Required by Paragraph (a)(1)(ii)(A) of Rule 17g-7

・ Please see the news release. If the credit rating is a private rating, please see the report for private rating.

2 The version of the procedure or methodology used to determine the credit rating; as Required by Paragraph (a)(1)(ii)(B) of Rule 17g-7

・ Please see the news release. If the credit rating is a private rating, please see the report for private rating.

3 The Main Assumptions and Principles used in Constructing the Procedures and Methodologies used to Determine the Credit Rating as Required by Paragraph (a)(1)(ii)(C) of Rule 17g-7

・ The credit rating methodology assumes, in principle, to be applied to assess the likelihood of a given debt payment in light of its issuer's condition and business environment, etc. in the relevant future. There is certain limitation, however, in the time horizon that the rating foresees.

・ The credit rating methodology assumes, in principle, that the factors posted in the below are particularly important for such likelihood to be determined, and that the rating determination is made by evaluating each of them not only quantitatively but also employing qualitative analyses.

A) Business Bases

The likelihood of a given debt payment is highly conditional to its issuer's business bases - how they can be maintained/ expanded into the future and thereby secure earnings and cash flows in adequacy and in a sustainable way.

B) Financial Grounds and Asset Quality

The likelihood of debt payment is highly dependent on the degree of the issuer's indebtedness and loss absorption capacity in terms of equity capital. Also notable is that a financial institution might see a significant loss of financial grounds as a result of changes in value of the assets under its possession.

C) Liquidity Positions

The likelihood of debt payment is highly dependent on the adequacy of the issuer's cash and other sources of repayment (liquidity positions).

D) Related Parties' Status and Stance of Support/ Assistance for the Issuer

The likelihood of debt payment is affected one way or the other by the issuer's related parties such as parent company, subsidiary, guarantor, and the government of the issuer's business domicile, etc. - by their own conditions and/ or position of support/ assistance for the issuer.

E) Order of Seniority in Debt Payment

The likelihood of debt payment can be different between given debts of the same issuer. The likelihood of debt payment for an individual debt is dependent on the issuer's discretion, and/ or its rank relative to other debts of the same issuer in the order of seniority in principal/ interest payment which is determined by design as financial product or by laws, etc.

4 The Potential Limitations of the Credit Rating as Required by Paragraph (a)(1)(ii)(D) of Rule 17g-7

- The credit rating herewith presented by JCR is its summary opinion with regard to the likelihood of given debt payment and hence not necessarily a perfect representation of such likelihood. The credit rating is not intended to estimate the probability of default or the loss on given default, either.
- The objective of the credit rating herewith presented does not include any concerns other than the likelihood of debt payment, such as risks of price changes, market liquidity, etc.
- The credit rating herewith presented is necessary to be reviewed along with possible changes of the issuer of rated objects in its business performance and/ or circumstances which include regulatory environment, and hence subject to possible alteration.

5 Information on the Uncertainty of the Credit Rating as Required by Paragraph (a)(1)(ii)(E) of Rule 17g-7

- The information used for the determination of credit rating as herewith presented is obtained by JCR from the issuer of rated objects and other sources that JCR trusts in terms of accuracy and reliability but possibly contains errors due to human, non-human or other causes. Consequently, the credit rating determined on the grounds of such information does not constitute, explicitly or implicitly, any representation or warrant of JCR on the information itself or any consequences of its use in terms of accuracy, relevance, timeliness, wholeness, market value, or usefulness for any specific purposes.

6 Use of Due Diligence Services of a Third Party in Taking the Rating Action as Required by Paragraph (a)(1)(ii)(F) of Rule 17g-7

- There is no use of any third-party due diligence service in the determination of the credit rating herewith presented.

7 Use of Servicer or Remittance Reports to Conduct Surveillance of the Credit Rating Required by Paragraph (a)(1)(ii)(G) of Rule 17g-7

- There is no use of any servicer or remittance report to conduct surveillance of the credit rating herewith presented.

8 The Types of Data Relied Upon for the Purpose of Determining the Credit Rating as Required by Paragraph (a)(1)(ii)(H) of Rule17g-7

- The information posted in the below, which includes data, is used for the determination of the credit rating herewith presented.

A) Audited financial statements presented by the rating stakeholders

B) Explanations of business performance, management plans, etc. presented by the rating stakeholders

9 Overall assessment of the Quality of Information Available and Considered in Determining the Credit Rating as Required by Paragraph (a)(1)(ii)(I) of Rule 17g-7

- JCR holds its basic policies for securing the quality of information as a base of due diligence for the determination of credit ratings. The information used as a base for the determination of credit rating herewith presented satisfies such policies, which include the audit by an independent auditor, the warranty made by the issuer, the publication by the issuer, some independent media or, otherwise, JCR analyst's scrutiny, etc.
- JCR sees no particular weakness in the quality of information used for the determination of the credit rating herewith presented as compared to the information used in other cases of the credit rating for comparable issuers or ratable objects.
- If the credit rating is an Indication, please see the report for Indication.

10 Information Relating to Conflicts of Interest as Required by Paragraph (a)(1)(ii)(J) of Rule 17g-7

- JCR receives payment of compensation for the determination of the credit rating herewith presented from either one of those parties who are issuer, underwriter, depositor or sponsor.
- JCR received in the last fiscal year in the past payment of compensation from the same party for any kind of JCR's service other than the determination of public or private credit rating, such as one in the ancillary business.

11 Explanation or Measure of the Potential Volatility of the Credit Rating as Required by Paragraph (a)(1)(ii)(K) of Rule 17g-7

A) Business Bases

The credit rating is subject to alteration if there is improvement or deterioration of the issuer's business bases, since its revenue, etc. may improve or deteriorate by the change in its business management policies, clients' preferences, competitive situation, or a technological innovation. The resultant alteration of the credit rating is usually by a notch, with possibility of a few notches if and when the change in the business bases is large.

B) Financial Grounds and Asset Quality

The credit rating is subject to alteration if the issuer increases/ decreases its debt/ capital or vice versa and thereby makes its individual debt payment liability less or more bearable and its loss absorption capacity into the future decreased or increased. Also, the changes in the quality of asset under the issuer's holding may affect the credit rating, since such changes could raise or lower the likelihood of future loss of the issuer's financial grounds. The resultant alteration of the credit rating is usually by a notch, with possibility of a few notches if and when the change in the financial grounds and/ or asset quality is large.

C) Liquidity Positions

The credit rating is subject to alteration if there is a change in the issuer's financial management policy or in the relations with fund procurement sources and the change thereby makes its liquidity positions improve or deteriorate. The resultant alteration of the credit rating is usually by a notch, with possibility of a few notches if and when the change is large.

D) Related Parties' Status and Stance of Support/ Assistance for the Issuer

The credit rating is subject to alteration if there is a change in the issuer's parent company or subsidiary, guarantor or other provider of credit enhancement, or the government of the issuer's business domicile, or other related parties' own conditions and/ or position of support/ assistance for the issuer, and the change thereby makes its business bases, financial grounds and/ or liquidity positions improve or deteriorate, and/ or making the effectiveness of guarantee and other credit enhancement improve or deteriorate. The resultant alteration of the credit rating is usually a notch, with possibility of a few notches if and when the change is large.

E) Order of Seniority in Debt Payment and Non-Payment Forgiven by Contract

The credit rating is subject to alteration if there is a change in the rated debt's status in the order of seniority relative to other debts caused by the improvement/ deterioration of the issuer's financial condition. The resultant alteration of the credit rating is usually a notch, with possibility of a few notches if and when the change is large. Also, in case of the financial products for which non-payment of interest/ principal is contractually permissible, the credit rating is subject to alteration if and when the likelihood of such non-payment is projected to increase or decrease. The resultant alteration of the credit rating could be by a notch but often as much as a few notches.

F) Rise and Fall in General Economy and Markets

The credit rating is subject to alteration if there is a rise/ fall in the general economy and/ or the markets inducing the issuer's revenues/ expenses to increase/ decrease and vice versa, etc. The resultant alteration of the credit rating is usually by a notch, with possibility of a few notches if and when the change is exceptionally large.

G) Various Events

The credit rating is subject to alteration on occurrence of various events, such as change in the issuer's major shareholders, M&A and other organizational change, accident, violation of the law, litigation, legal/ regulatory change, natural disaster, etc., which are unforeseeable at the time when the credit rating is determined, causing a significant change on the issuer's business bases, financial grounds, etc. The resultant alteration of the credit rating could be by a notch but more often than not as much as a few notches.

12 Information on the Content of the Credit Rating, Including the Historical Performance of the Credit Rating and the Expected Probability of Default and the Expected Loss in the Event of Default as Required by Paragraph (a)(1)(ii)(L) of Rule 17g-7

- Historical records of the credit rating herewith presented are posted in the end of this paper.
- The credit rating herewith presented by JCR is its summary opinion with regard to the likelihood of given debt payment and hence not necessarily a perfect representation of such likelihood. The credit rating is not intended to estimate the probability of default or the loss on given default, either.
- Facts of the probability of default are posted as Form NRSRO Exhibit 1 on the JCR website under the URL:

https://www.jcr.co.jp/en/service/company/regu/nrsro/

13 Information on the Sensitivity of the Credit Rating to Assumptions Made as Required by Paragraph (a)(1)(ii)(M) of Rule 17g-7

A) Business Bases

The credit rating herewith presented could be changed if and when the assumptions made at the time of its determination turn out to be inaccurate with regard to the issuer's business bases and powers of earning or cash flow generation, etc. The resultant change of the credit rating is most likely by a notch,

as JCR speculates, but possibly as much as a few notches if the development is rapid in improvement or deterioration of the issuer's business bases on some drastic change in the operational environments, etc.

B) Financial Grounds and Asset Quality

The credit rating herewith presented could be changed if and when the assumptions made at the time of its determination turn out to be inaccurate with regard to the issuer's financial grounds and asset quality. The resultant change of the credit rating is most likely by a notch, as JCR speculates, but possibly as much as a few notches if the development is rapid in improvement or deterioration of the issuer's financial grounds and/ or asset quality on some drastic change in its business bases.

C) Liquidity Risks

The credit rating herewith presented could be changed if and when the assumptions made at the time of its determination turn out to be inaccurate with regard to the issuer's liquidity positions. The resultant change of the credit rating is most likely by a notch, as JCR speculates, but possibly as much as a few notches if the development is rapid in improvement or deterioration of the issuer's liquidity positions on some drastic change in its financial management policy or relations with fund procurement sources, etc.

D) Related Parties' Status and Stance of Support/ Assistance for the Issuer

The credit rating herewith presented could be changed if and when the assumptions made at the time of its determination turn out to be inaccurate with regard to the issuer's parent company or subsidiaries, guarantor or other providers of credit enhancement, the government of the issuer's business domicile or other related parties' status and stance of support/ assistance for the issuer. The resultant change of the credit rating is most likely by a notch, as JCR speculates, but possibly as much as a few notches if there is a major change on the part of related parties, such as replacement, disappearance, some drastic improvement/ deterioration of financial grounds/ balances, etc.

E) Order of Seniority in Debt Payment and Non-Payment Forgiven by Contract

The credit rating herewith presented could be changed if and when the assumptions made at the time of its determination turn out to be inaccurate with regard to the order of seniority in repayment of interests and principal. JCR assumes the resultant change of the credit rating is most likely by a notch. The change could be as much as a few notches if the issuer's financial structure differs so much and thereby the balance between debts shifted so greatly. Rating change is also possible in case of the financial products for which non-payment of interest/ principal is contractually permissible, if and when the assumptions made at the time of its determination turns out to be inaccurate. The change of the credit rating is assumed to be by a notch but often as much as a few notches.

14 Information on the Representations, Warranties, and Enforcement Mechanisms of an Asset-backed Security as Required by Paragraph (a)(1)(ii)(N) of rule 17g-7

・ The credit rating herewith presented is not for an ABS product, and hence no relevant issue.

Attestation Required by Paragraph (a)(1)(iii) of Rule 17g-7

I, Tomohiro Miyao, have responsibility to this Rating Action and to the best of my knowledge:

A) No part of the credit rating was influenced by any other business activities.

B) The credit rating was based solely upon the merits of the obligor, security, or money market instrument being rated.

C) The credit rating was an independent evaluation of the credit risk of the obligor, security, or money market instrument.

宮尾 知浩

Tomohiro Miyao
General Manager of Financial Institution Rating Department
