Japan Credit Rating Agency, Ltd. (JCR) announces the following credit rating.

## Giga Solar Green Project Bond Trust (Fukushima) Beneficial Interest and Trust ABL

<affirmation></affirmation>	
Beneficial Interest:	BBB-
ABL:	BBB-

## Rationale

The actual power generation amount and cash flows have been in line with the plan by and large. Attention needs to be paid to the fact that the product warranty has not been performed for panels, of which bus bar was burnt out; however, such panels account for only a small portion of the total panels, and JCR performed a simulation by putting extremely strong stresses on the acceleration of panel deterioration. JCR thereby ensured that the project's debt repayment capacity would be maintained.
