Japan Credit Rating Agency, Ltd. (JCR) announces the following credit rating.

Tokai Tokyo Financial Holdings, Inc. (security code: 8616)

<Affirmation>

Long-term Issuer Rating: BBB+
Outlook: Stable
EMTN Program: BBB+
Short-term Issuer Rating: J-2
CP: J-2

Tokai Tokyo Securities Co., Ltd. (security code: -)

<Affirmation>

Long-term Issuer Rating: BBB+ Outlook: Stable

Rationale

- (1) The Tokai Tokyo Financial Group (the "Group") is a second-tier securities group with strength in retail operations centering on face-to-face consulting sales. Under the umbrella of its holding company Tokai Tokyo Financial Holdings, Inc. (the "Company"), it has various subsidiaries including core Tokai Tokyo Securities Co., Ltd. ("Tokai Tokyo Securities") and operates the joint venture securities companies (JV) business with regional banks. In an effort to expand business and diversify revenue sources, it acquires businesses such as insurance agencies and M&A advisory firms, and is aggressively engaged in new businesses in digital area such as launching a smartphone securities trading service as well.
- (2) The rating is supported by the Group's established business base for retail operations, the JV business, etc., and sufficient capital level relative to the quantity of risk. Although there is room for improvement in earning capacity, efforts to restore the capacity, such as reducing fixed costs and diversifying revenue sources, continue to produce results. Regarding the holding company's issuer rating, structural subordination is not reflected, in light of unity with Tokai Tokyo Securities and the level of the double leverage ratio.
- (3) In the fiscal year ended March 31, 2023 (FY2022), because of a slump in the stock market and the significant impact of suppressed sales of structured bonds, consolidated net operating revenue decreased by approximately 10% year on year. Partly due to the increased upfront investment burden for new businesses in the digital area, consolidated net ordinary profit was halved from the previous fiscal year to a relatively low level of 6.3 billion yen. However, the amount of assets introduced is trending toward a net increase, and assets under custody, including the high-net-worth customers business, on which the Company is focusing, and JV business, are expanding, and IFA and insurance-related revenues are increasing. In the first quarter of FY2023, consolidated ordinary profit recovered to 4 billion yen due to an increase in revenue related to domestic and foreign stocks on the back of an improvement in the stock market. However, the current recovery in profits is largely owing to market tailwinds, and the Company's revenue structure remains susceptible to the impacts of the market environment. In addition to strengthening existing businesses by focusing on consulting sales to retail customers and striving to expand stable revenue, the Group is diversifying its revenue structure through alliances with other industries and initiatives in new businesses. It has also begun to take additional cost reduction measures, and JCR will keep an eye on the progress of the initiatives.
- (4) As of the end of June 2023, consolidated shareholders' equity came to 166.5 billion yen, and Tokai Tokyo Securities's capital adequacy ratio on an unconsolidated basis stood at 486.3%, improved year on year due to subordinated financing, showing a decent level. As trading is mainly based on customer flow, the quantity of risk is small despite the uptrend in principal investments. In terms of financing, bank borrowings, call money and the repurchase transactions serve as primary means, and corporate bond procurement is also conducted. There are abundant liquid assets centered on JGBs, and sufficient credit facilities including committed lines of credit are also secured. Therefore, JCR finds little concerns about liquidity.

The assumptions for the credit ratings and the definitions of the rating symbols are published as "Types of Credit Ratings and Definitions of Rating Symbols" (January 6, 2014) in Information about JCR Ratings on JCR's website (https://www.jcr.co.jp/en/).

Outline of the rating methodology is shown as "JCR's Rating Methodology" (November 7, 2014), "Securities" (May 8, 2014) and "Rating Methodology for Financial Groups' Holding Companies and Group Companies" (September 1, 2022) in Information about JCR Ratings on JCR's website (https://www.jcr.co.jp/en/).

The rating stakeholder participated in the rating process of the aforementioned credit ratings.

A program rating is assigned to evaluate the creditworthiness of a program. The credit standing of an individual note issued under the program may be regarded as the same as that of the rated program. However, JCR does not consider the credit standing of the individual note as the same as that of the program, in the cases where the principal and interest payments of the individual note rely on the credit standing of a third party rather than the issuer of the program and notes (e.g. credit linked notes and exchangeable notes). JCR usually does not assign a rating to the individual note issued under the program, unless the issuer solicits a rating.

- The Main Assumptions and Principles used in Constructing the Procedures and Methodologies used to Determine the Credit Rating as Required by Paragraph (a)(1)(ii)(C) of Rule 17g-7
 - The credit rating methodology assumes, in principle, to be applied to assess the likelihood of a given debt payment in light of its issuer's condition and business environment, etc. in the relevant future. There is certain limitation, however, in the time horizon that the rating foresees.
 - The credit rating methodology assumes, in principle, that the factors posted in the below are particularly important for such likelihood to be determined, and that the rating determination is made by evaluating each of them not only quantitatively but also employing qualitative analyses.

A) Business Bases

The likelihood of a given debt payment is highly conditional to its issuer's business bases - how they can be maintained/ expanded into the future and thereby secure earnings and cash flows in adequacy and in a sustainable way.

B) Financial Grounds and Asset Quality

The likelihood of debt payment is highly dependent on the degree of the issuer's indebtedness and loss absorption capacity in terms of equity capital. Also notable is that a financial institution might see a significant loss of financial grounds as a result of changes in value of the assets under its possession.

C) Liquidity Positions

The likelihood of debt payment is highly dependent on the adequacy of the issuer's cash and other sources of repayment (liquidity positions).

D) Related Parties' Status and Stance of Support/ Assistance for the Issuer

The likelihood of debt payment is affected one way or the other by the issuer's related parties such as parent company, subsidiary, guarantor, and the government of the issuer's business domicile, etc. - by their own conditions and/ or position of support/ assistance for the issuer.

E) Order of Seniority in Debt Payment

The likelihood of debt payment can be different between given debts of the same issuer. The likelihood of debt payment for an individual debt is dependent on the issuer's discretion, and/ or its rank relative to other debts of the same issuer in the order of seniority in principal/ interest payment which is determined by design as financial product or by laws, etc.
