

Japan Credit Rating Agency, Ltd. (JCR) announces the following credit rating.

## JRE Mega Solar Project Bond Trust 2 Beneficial Interest

<Affirmation>

Beneficial Interest: A

### Rationale

This is project finance by Japan Renewable Energy Co., Ltd. (sponsor) for the mega solar project that is operated in Kamisu City, Ibaraki Prefecture. As the revenue from electricity sales since the start of the sales till May 2019 has been above the planned and the costs have been conservatively estimated, DSCR remains at a good level. This project has been conducted smoothly and there have been no specific events that have any impact on the debt service capacity. The outlook for the future cash flow has not significantly changed from the outlook at the time of initially rating. JCR sees that cash flow from this project has a sufficiently high margin for redemption of the beneficial interest. Taking the above into consideration, JCR affirmed the A rating on the beneficial interest.
