

Japan Credit Rating Agency, Ltd. (JCR) announces the following credit rating.

SGET Tochigi Mega Solar Power Station Project Beneficial Interest

<Assignment>
Beneficial Interest: A

Rationale

With high robustness of structure and creditworthiness of the related parties, the Project's DSCR during the term is good thanks to the enjoying of economies of scale and the purchase price (before tax) at 36 yen. The site preparation work took longer time than expected, but the construction work has progressed steadily, and there has been no change to the delivery date at the end of July 2017. JCR also affirmed the cash flow's robustness by a stress test in consideration of multidirectional installation of panels. While hurdle for events of dividend payment suspension is considered slightly low, structures to promptly catch deterioration of the Project GK's profits, find the cause and encourage improvement of the operations have been established. JCR also values a relatively high portion of equity to the total investment amount. Taking the above into consideration, JCR assigned a rating of A to the beneficial interest.

Naoki Kato, Tadashi Ono

Rating

<Assignment>				
Instrument Name	Initial Issue Amount	Trust Termination Date	Coupon Type	Rating
Beneficial Interest	Y250,000,000	September 4, 2035	Floating	A
