

Japan Credit Rating Agency, Ltd. (JCR) announces the following credit rating.

## Canadian Solar Dual Tenor Green Project Bond Trust (Gunma) Beneficial Interest and Trust ABL

### <Affirmation>

Beneficial Interest: A  
ABL: A

### Rationale

This is project finance by Canadian Solar Group for mega solar project that is operated in Minakami-machi, Gunma Prefecture.

The amount of electricity generated has been above the planned amount in general against the background of good solar radiation quantity. There is no specific problem with the annual performance ratio as compared with JCR's assumed level, and the operating costs have been within the scope of the initially forecasted. Although there are adverse effects from snows, troubles of some of the power generation facilities, and others, there have been no events that cause a significant change in JCR's outlook for the income and outlay, stress assessment or others.

Taking the above into consideration, JCR affirmed the A ratings on the beneficial interest and trust ABL.

Kiichi Sugiura, Kengo Sakaguchi and Tomohiko Iwasaki

### Rating

#### <Affirmation>
